

Eye Treatment **(for puffiness and dark circles in the eye area)**

De-puff eyes and cool them with peptides and seaweed. Use this treatment during the second mask of your facial.

Professional Treatment:

- 1) Cleanse the eye area and remove makeup with Pomegranate Creamy Cleanser (this should be done during normal cleansing during the facial).
- 2) Before applying the second mask of the facial, apply Peptide Eye Serum to the eye area and gently massage into the skin.
- 3) Apply Peptide Eye Cream to the eye area and gently massage into the skin.
- 4) Apply the second mask appropriate for the skin type to the rest of the face, avoiding the eye area (this is your second mask within your normal facial).
- 5) Apply Seaweed Mask to a piece of gauze, or eye mask (ideally have these made in advance and placed in the refrigerator) and apply it to the eye area.
- 6) Leave the Seaweed gauze (and the second mask) on the skin for 10 minutes.
- 7) Remove with warm barber towel or cool aesthetic wipes.
- 8) Proceed with the remainder of the facial (tone, moisturize, spf).

Suggested Home Care to support this treatment:

- 1) Peptide Eye Cream and Peptide Eye Serum twice a day applied to entire eye area (avoiding contact within the eye).

Products Needed for this Treatment:

Peptide Eye Serum, Peptide Eye Cream, Seaweed Mask

Eye and/or Lip Treatment (for fine lines in the eye and lip area)

Hydrate and minimize fine lines with hyaluronic acid and goji berry for firming. Use this treatment during the second mask of your facial.

Professional Treatment:

- 1) Cleanse the eye area and remove makeup with Pomegranate Creamy Cleanser (this should be done during normal cleansing during the facial).
- 2) Before applying the second mask of the facial, apply Ageless Skin Hydrating Serum to the eye and lip area and massage into the skin.
- 3) Apply the second mask appropriate for the skin type to the rest of the face, avoiding the eye area (this is your second mask within your normal facial).
- 4) Apply Goji Berry Yogurt Mask to a piece of gauze, or eye mask (ideally have these made in advance and placed in the refrigerator) and apply it to the eye area and a second gauze for the lip area.
- 5) Leave the Goji Berry gauze (and the second mask) on the skin for 10 minutes.
- 6) Remove with warm barber towel or cool aesthetic wipes.
- 7) Proceed with the remainder of the facial (tone, moisturize, spf).

Suggested Home Care to support this treatment:

- 1) Ageless Skin Hydrating Serum twice a day applied to entire eye and lip area (avoiding contact within the eye).

Products Needed for this Treatment:

Ageless Skin Hydrating Serum, Goji Berry Yogurt Mask
